

2010 Beam Instrumentation Workshop

# Tuesday Morning Information

**La Fonda, Santa Fe, NM**

**May 4, 2010**

## BIW10 Dedication

---

Gary Smith

April 5 1939 – July 16 2009

The Beam Instrumentation Workshop Committee mourns the loss of one of its members, Gary Smith. Gary started at Brookhaven National Lab (BNL) March 1<sup>st</sup> 1965 and retired June 26<sup>th</sup> 2003. During his tenure at BNL, he was a highly regarded engineer working on Beam Instrumentation. Early in his career he worked on Bubble Chamber instrumentation as well as other complex pieces of equipment such as the horn power supply. In addition Gary was the supervisor of the “Beamology” Group in the mid 1970’s. He participated on the development of systems for AGS, Booster, RHIC, and the Spallation Neutron Source. Gary joined the BIW committee in the early 90’s and co-chaired the conference in 2002.

Gary was a ham radio operator, enjoyed crossword puzzles, and teaching his friends to ski. He liked to backpack and enjoyed taking trips to Rangeley Maine with his wife. Gary is survived by his wife Rose, children Todd, Beth, Jennifer, and three grandchildren. Gary is missed by us all.

## Reminders

---
